Instructions for Payee

You have received this form because you have either (a) accepted payment cards for payments, or (b) received payments through a third party network in the calendar year reported on this form. Merchant acquirers and third party settlement organizations, as payment settlement entities (PSEs), must report the proceeds of payment card and third party network transactions made to you on Form 1099-K under Internal Revenue Code section 6050W. The PSE may have contracted with an electronic payment facilitator (EPF) or other third party payer to make payments to you.

If you have questions about the amounts reported on this form, contact the FILER whose information is shown in the upper left corner on the front of this form. If you do not recognize the FILER shown in the upper left corner of the form, contact the PSE whose name and phone number are shown in the lower left corner of the form above your account number.

Form 1099-K: Payment Card and Third Party Network Transactions

What's New: Due to the recent change in IRS tax reporting rules, for sales after January 1, 2025, Amazon is required to issue a Form 1099K to all sellers **if you amassed more than $20,000 in unadjusted gross sales AND you had more than 200 transactions during the current calendar year.**

What is form 1099-K?

Amazon is required to file Form 1099-K each calendar year to report the unadjusted gross amount of all reportable payment transactions, which are defined as payment card transactions or third party network transactions. Amazon must report if you amassed more than $20,000 in unadjusted gross sales AND you had more than 200 transactions during the current calendar year, you were subject to withholding, or you have an address in a state with a lower reporting threshold.

Note: If multiple accounts share a Tax ID, the values on Form 1099-K include the total of those accounts.
For invoicing orders, Amazon is required to report on the date of the transaction, while the Date Range reports in your Seller Central account are based on the date you received the funds into your account. Due to invoicing, you may see a difference in reported amounts month over month, or an overlap between December and January.

How are unadjusted gross sales calculated?

Unadjusted gross sales means the total sales, unadjusted for fees or refunds (displayed in the table below). It is the amount the buyer paid for an order even if the order is later refunded. Please note, if you have multiple accounts the values below will reflect aggregated information.
